ANNEXURE C

QUESTIONNAIRE

Dear All

I have designed a specific questionnaire for all EHP’s to assist me in finalization of my PhD. These questions are mainly aimed at clarifying some of the challenges faced by EHP in their daily activities. You are requested to answer them openly and honestly as these will assist in making necessary recommendations to enhance the profession in the local sphere of government.

1. Do you think that local municipalities are clear on the roles and functions of the EHP’s? Kindly explain.
2. If No, what needs to be done to remedy the defects?
3. Do councillors both at the district and local municipality have a fair knowledge of EH issues? Explain?
4. Do you think communities are conversant with the environmental health issues? Why?
5. What support do you get from management and council?
6. How can the EHPs be complemented/ supported by Management, Councillors or Dept of Health?
7. Does system of local government creates enabling environment to practice as EHPs? Explain?
8. Any other comment?
