APPLICATION FORM TO REGISTER RESEARCH PROJECTS IN THE FREE STATE
DEPARTMENT OF EDUCATION

- Please complete all the sections of this form that are applicable to you. If any section is
  not applicable please indicate this by writing N/A.
- If there are too few lines in any of the sections please attach the additional information
  as an addendum.
- Attach all the required documentation so that your application can be processed.

Send the application to:

Director: Quality Assurance
Room 401
Syfrets Building
Free State Department of Education
Private Bag X20565
Bloemfontein
9300.

Tel: 051-4048750/4048658
Fax: 051-447 7318

1  Title (eg Mr, Ms, Dr, Prof):
   Mr

2  Initials and surname:
   J M T S H A B A N G U

3  Telephone: Home:
   058 - 8133216
Work:

058 - 8503605

Cell:

083 - 7161239

Fax:

058 - 8530605

E-Mail

4 Home Address:

525 Masilo Str
Nama Hadifrankfort
9830

5 Postal Address:

Same as above

6.1 Name of tertiary institution/research institute

North-West University (Vaal Triangle Campus)

6.2 Occupation: Educator

6.3 Place of employment: Heilbron

7 Name of course: MEd
8 Name of supervisor/promoter: Dr SJ Kwatubana
Please attach a letter from your supervisor confirming that you have
registered for the course you are following.

9 Title of research project:

PERCEPTIONS OF STAKEHOLDERS ON HOW SCHOOLS IN THE FEZILE DABI
DISTRICT MANAGE REPUTATION

10 Concise explanation of the research topic:

11 Application value that the research may have for the Free State Education
Department:

12.1 The full particulars of the group with whom the research is to be
undertaken:

The population for this research is all principals, SMT members, educators, SGB
members, learners and parents in the Fezile Dabi district.

12.2 List of schools/Directorates in the Department/Officials:

The schools will be identified at a later stage but the focus will be on successful schools.

12.3 Grades:

The focus of this research is not on Grades but on the management

12.4 Age and gender groups:

12.5 Language groups:

The participants who will take part in this study will most probably speak the following
languages:
12.6 Numbers to be involved in the research project:

We will require the participation of 26 participants for us to be able to get in depth information.

13 Full particulars of how information will be obtained eg questionnaires, interviews, standardized tests. Please include copies of questionnaires, questions that will be asked during interviews, tests that will be completed or any other relevant documents regarding the acquisition of information.

I will use a qualitative research design, gathering the empirical data by means of interviews and observations.

14 The starting and completion dates of the research project: (Please bear in mind that research is usually not allowed to be conducted in the schools during the fourth term.)

We would ideally like to engage participants in interviews in May 2012.

15 Will the research be conducted during or after school hours?

The interviews will be conducted outside school hours so as not to interfere with teaching and learning in schools.

16 If it is necessary to use school hours for the research project, how much time will be needed?

Not applicable

17 How much time will be spent on the research project by individual educators and/or learners?
I will need an hour for an interview for each participant.

18 Have you included:

18.1 A letter from your supervisor confirming your registration for the course you are following? Yes

18.2 A draft of the letter that will be sent to the principals requesting permission to conduct research in their schools? Yes

18.3 A draft of the letter that will be sent to parents requesting permission for their children to participate in the research project? (If applicable) Yes

18.4 Copies of questionnaires that you wish to distribute? No

18.5 A list of questions that will be asked during the interviews? Yes

I confirm that all the information given on this form is correct.

Mr J. M. Tshabangu
526 Masilio Street
Namahadi
FRANKFORT
9830

Dear Mr Tshabangu

REGISTRATION OF RESEARCH PROJECT

1. This letter is in reply to your application for the registration of your research project.
2. Research topic: Perceptions of stakeholders on how schools in the Fezile Dabi District manage reputation
3. Your research project has been registered with the Free State Education Department.
4. Approval is granted under the following conditions:
   4.1 The name of participants involved remains confidential
   4.2 The questionnaires are completed and the interviews are conducted outside normal tuition time.
   4.3 This letter is shown to all participating persons.
   4.4 A bound copy of the report and a summary on a computer disc on this study is donated to the Free State Department of Education.
   4.5 Findings and recommendations are presented to relevant officials in the Department.
5. The costs relating to all the conditions mentioned above are your own responsibility.
6. You are requested to confirm acceptance of the above conditions in writing to:

   DIRECTOR: STRATEGIC PLANNING, POLICY AND RESEARCH,
   Old CNA Building, Maitland Street OR Private Bag X20565, BLOEMFONTEIN, 9301

We wish you every success with your research

Yours sincerely

MOTHEBE
DIRECTOR: STRATEGIC PLANNING, POLICY AND RESEARCH

APPENDIX 3

INTERVIEW SCHEDULE

INTERNAL STAKEHOLDER- SMT Members, educators, learners and non-teaching staff members

What do you think the current reputation is at your school?
What are your reasons for your response?
How do you think reputation is managed at your school?
What areas does the school focus on in ensuring reputation management?
Do you think managing the school’s reputation is a priority at your school?
If so, why?
Do you think your school has a plan in place to manage communication?
What plans are there to manage communication?
Why do you think it is important for a school to manage reputation?
Do you think your school is adequately prepared to manage its reputation on media?
What strategies do you think the school has to manage its reputation in the community?
What do you think the core drivers of reputation are in schools with high reputation?
APPENDIX 4

INTERVIEW SCHEDULE

EXTERNAL STAKEHOLDER- District officials, Parents, Community members

What do you think the current reputation is at this school?

What are your reasons for your response?

How do you think reputation is managed at this school?

What areas does the school focus on in ensuring reputation management?

Do you think managing the school's reputation is a priority at this school?

If so, why?

Do you think the school has a plan in place to manage communication?

What do you think the school can do to manage its reputation?

What do you think the drivers are for high reputation at this school?

Do you think the school is adequately prepared to manage its reputation on media?

What strategies do you think the school has to manage its reputation in the community?

What do you think the core drivers of reputation are in schools with high reputation?
SCHOOL A

Interviewee no: 1

(Educator)

Question 1
How long have you been in this school?

Response
I have been here for more than 10 years.

Question 2
Were you having the same principal?

Response
No.

Question 3
When did this principal start working in this school?

Response
She started in 2009

Question 4
What changes has she made?

Response
Each and every committee here at school has a file and they account for every money they have spent. Another change she brought was that when we collect money from learners we must take it to the finance clerk so that it can be recorded and receipts to be issued.
This year there was also staff development training conducted by the district officials. Issues like polices were addressed.

**Question 5**

Let us talk about these trophies. I have never seen so many trophies. When did you get them?

**Response**

This one is for athletics, football, netball and drumming, for example, like now we are in choir competitions in Freedefort.

**Question 6**

What do parents say about the schools achievements?

**Response**

We don’t just take learners without informing their parents about the training sessions and the times that learners will be back from school matches. We also inform them about school excursions.

**Question 7**

Do you go back to parents and give them feedback about how they performed?

**Response**

Yes, we do inform them about learner’s achievements during parents meetings

**Question 8**

How do you inform parents? Do you tell them about all the years achievements or what?

**Response**

We usually do it at the end of the year, because athletics start from January until the end of the year. E.g like in January we had athletics, soccer, netball and now the learners as busy with basketball and their parents know that they are busy/participate throughout the year. Sorry I forgot to also inform you that we have newsletters that are sent out every term where we inform parents about the achievements and these newsletters are written in Zulu and Sotho.

Even though parents know about the learners achievements through the newsletters they only see the trophies during the parents meetings.
Question 8

Let us say something happens at school maybe a child gets raped. How would you deal with the media?

Response

I think the first people that need to know would be the SMT as they are able to deal with it.

Question 9

Do you think the SMT is ready to deal with the media?

Response

Yes I do. Especially the principal he is one person who adheres to policy.

Question 10

In the past has something similar happened at school that let to parents having to be informed?

Response

Yes we had a similar incident that involved SAPS coming to school to interview us and we were later called as witnesses to testify.

Question 11

I like these trophies. When did you get these trophies?

Response

Some are from last year and others from the previous years. The only challenge is that they do not indicate the dates nor the year the trophy was achieved.

Question 12

Do you have problems sending your learners to ex-model C schools?

Our school goes up to grade 8 and after the learner has passed grade 8 our learners go to high schools here in the location.
INTERVIEWEE NO: 3

THE PRINCIPAL

QUESTION 1

I see a lot of trophies here in the office, how did you get them?

ANSWER

These trophies are for music, netball, soccer and drummies. Our educators as well as our learners performed well. We did not get them in one others were obtained 3 to 4 years back. We have different committees and they work together and report their achievements. Each committee has a file and the co-ordinator who is in a vital role.

QUESTION 2

How do you report these achievements?

answer

Each committee has a file and every term they give reports in the form of a newsletter to parents. All achievements are reported at the end of the year trophies will be shown to parents in

question

How do parents respond when you invite them to parents meetings?

answer

The response is very good, and they come in big numbers to the meetings. In April we held SGB elections and in our school we did not experience problems. A big number of parents attended and the election went on smoothly. In the school where I was appointed to run elections, we experienced a serious of parents who did not avail themselves for the elections. The date was postponed.

Question 4

How do you celebrate your achievements?

Answer

We invite parents and give them reports quarterly. At the end of the year we give awards to deserving committees and other stakeholders. We show them trophies.
Question 5

How do you get parents involved?

Answer

When I come here to this school I drew up on organogramme showing the responsibilities of SGB and the management. I also show them how important each stakeholder is and how important their roles are. I also explained the importance of working together and supporting each other also conducted training for the SGBs where their roles were discussed.

Question 6

Do you think you have got plans to deal with a situation where the media can came to school to interview any educator about a child who raped or hurt?

Answer

Yes we can be able to deal with such a situation if stakeholders know what needs to be done and if systems are in place.

Question 7

How is the attendance of the learners?

Answer

We do not experience a lot of problems as far as learner attendance. We assign duties to parents of learners attend regularly. the parent must accompany the learner to school to see to it that attendance improves. at the end of the year the parent will get an award for helping that learner.

Question 8

Are your learners safe and happy at school?

Answer

Yes our learners are always happy at school even now the school is not but they don’t even like to go home because they enjoy to be at school. We also have alarm system in place.

Question 9

How do you check program at school?
Answer

We have different committees for teaching and learning and also for extra mural activities. These committees report on a monthly basis and the HOD’s assist a lot in seeing that everything is in order.

Question 10

how do you communicate with parents?

Answer

The school communicate with newsletters and call parent meetings. Quarterly reports are given to parents, e.g., foundation phase invites parents and gives report to parents. Intermediate and senior phase hold their meetings quarterly to give feedback to parents at the end of the year the school give award to all stakeholders who deserve them.
SCHOOL A

INTERVIEWEE NO 4
(NON TEACHING STAFF)

Question 1
Is your school bigger than their schools in the township?

Answer
No it is not bigger than other schools. Our challenge is accommodation.
If we had more accommodation (classrooms) we would enroll more learners

Question 2
When we talk about communication, how would you handle a case where the media interviews you about a child who was raped or burnt?

Answer
We do not answer the media

Question 3
Is there any policy regarding this matter?

Answer
No we don't have a policy for interviewers. It is time that schools have measures like universities that have a representative to handle the media or represent the school

Question 4
How is the communication between the parents and educators?

Answer
Communication is ok, but there is a challenge of free movement of parents coming to school during school hours which disturb teaching and learning. another challenge is that some
educators don’t read what is written in the notice book they just sign and at time not attend meeting. other do sign and read but don’t attend.

Question 5

Let’s talk about extra-mural activities such as netball, soccer and music. do you compete with other schools?

Answer

yes, the school compete with other schools and they win trophies

Question 6

Were these trophies obtained in one year?

Answer

No others we won long ago.

Question 7

When it comes to teaching performance in class how would you rate your school?

Answer

I can rate the school 5 out of ten.

Question 8

Have you always had 800 learners?

Answer yes ever since I came here it was 800 learners

Question 9

Were there any teachers transferred or redeployed to other schools because of having 800 learners?

Answer

No there were no educators transferred to other schools.
Question 1

When we talk about the reputation of a school we are referring to the image and identity of a school. Can you tell us more about the image of your school?

Answer

The image of this school is very good because educators are working very hard. There is a strong team work among educators. Our learners also enjoy to be registered at our school and parents have confidence of educator’s. Like now I am from the class where I was conducting the school choir preparing it for the choir competitions which will be held on Saturday.

Question 2

Do your learners take part in extra-mural activities?

Answer

Yes our leaner’s do take part in sports and they perform well if you look around there are trophies all over.

Question 3

How do you achieve these trophies? Did you get them in one year?

Answer

These trophies were achieved in different years. Last week our learners did very well in soccer and they won that trophy. We also have netball, volleyball and athletics, our learners like to play soccer and netball and they perform well.

Netball and choir will be going to Koppies for choir competitions and I am sure we are going to win.

Question 4

How do you celebrate the school achievements?

Response
We invite parents at the end of the year when we hold prize giving ceremonies. Parents are informed about these achievements and awards are awarded to the deserving learners as well as educators.

What is the role of SMT on supporting the staff?

**Answer**

As a member of the SMT we support and assist our educators a lot. When coming to curriculum management we meet with our educators and discuss the progress as well as challenges. Workbooks are controlled by HOD’s and feedback given to educators. The SMT also support educators where they experience challenges.

**Question 5**

How is the SGB assisting the school?

**Answer**

The SGB plays an important role in governance issues. They see to it that educators are assisted with resources and they make sure that discipline is maintained at school.

**Question 6**

How do you communicate with parents?

**Answer**

When we want to meet with parents we issue out letters or notices informing them about the date, time & agenda of the meeting. We also use attendance registers where parents sign that they have attended the meeting. Our parents are highly motivated and attend in big numbers. If a learner has a serious problem we invite parents to come and assist us to solve the problem.

**Question 7**

How do you manage school funds?

**Answer**

The SGB of the school, the principal and the finance committee are the ones who manage the school funds. The SGB draws the budget every year and take it to parents for approval. Educators are also given the chance of submitting their needs more especially with regards to curricular matters. 50% of the budget is used for leaning support material. Every term the finance committee gives financial report to the parents and to the SGB.
**Question 8**

Do you have a policy that guides you on how to deal with the media?

**Answer**

At school we do have school policies which deal with many aspects but we do not have a specific policy that deals with a media. As a school we are going to look at such policies so that it could help us in future. Presently the principal is the one who deal with such people.
Question 1: What do you think the current reputation is at your school?

Answer:

Image ya sekolo e ntle haholo.

Question 2: Ha ore entle o bolela jwang , Hlalosa?

Answer:

There are policies here at school that include all Stakeholder. When we develop these policies, we develop them in such a way that we include everybody. Everything is transparent and on top of the table. All these policies are developed according to the regulations of the Department of Education.

We align ourselves with the documents of the Department of Education when we develop policies that guide us, we do not just do things because there are laws that guide us and there is transparency.

We are fortunate to have visionary leaders who are known and who have knowledge of the policies of the department. Our former principal was also one of these leaders who want to see things happening here at school.

We are doing things the way they are supposed to be done. Each and every learning area besides the school policy has a policy and we know these policies.

As the teachers we even know that when the Learning Facilitator comes he or she will be asking for certain information regarding that particular learning area. At times we remind the Learning facilitator that the policy state that we should do this and that.

For instance, I remember one day the English learning facilitator said teachers at school are well conversant with policies. We are very good as far as policies are concerned. The school has also a code of conduct for learners and parents know our communication channels. Everything is fine here at school.
**Question 3:** Ha ho kaba lengwana ya hlekefetswang ka motabo( rape) kapa ya tswang kotsi, la bona media e se e fihla e botsa ka taba ena le ka sebetsa jwang ka taba eo?

**Answer:**

This is a very difficult issue, but we are fortunate because we do not have incidences of gangsterism here at school. We do not have children that are smoking dagga in the toilets and our relationship with the parents is good. We have a code to show that they understand and they will always guard against learners who deviate from doing right things. Our learners know what is supposed to be done when they are at school. We don't have bad cases of learners who carry dangerous weapons and learners who use vulgar language.

We also ensure that what we teach our learners does not end here at school but lifelong learning, they also carry our values, and morals to their homes. The way they conduct themselves at school they must also do it at home as far as the media is concerned, we can consult because we have a adopt a cop, Social worker here at school and at the clinic we have a nurse who has adopted our school. We can consult relevant people who can deal with that situation.

**Question 4:** What are roles of a social worker and a nurse at school?

**Answer:**

A Social Worker assists those learners who are from child headed families and she helps those parents who do not look after their children. She also assists leaner’s who need social grants and lastly she deals with child abuse cases.

**Question 5:** Is the Social Worker appointed here at school?

**Answer:**

No, she has adopted the school. We only have a post for a remedial educator who assist all learners who experience learning problems. She assesses different cases and contact relevant people for assistance. At the end of the term she gives a report of how many learners were assisted and referred.
Question 6: How do you involve parents here at school?

Answer:

Parents help the school with cleaning. In foundation phase parents clean everyday after school. They share and they know who is cleaning on Mondays, Tuesday etc.

Question 7: Is the school paying for their (parents) services?

Answer:

No we don’t pay them, they are doing it for free, voluntarily. We only give them vegetables from our school garden.

In addition parents who have soccer, netball, volleyball skills they come on Wednesdays to assist leaners during sports activities. Even educators children who possess good sports skills come and assist our learners here at a school. The district office is also assisting us.

Question 8: How does the community assist?

Answer:

The community enables something called “sense of ownership”. They are jealous about our school. They feel that they are watch dogs of our school. Although we know that criminals and vandalism is all over, but it is not right.

At times you hear them saying principal the lights were not on last night, that alone shows they are really care

During administration time, every parent wants to register his or her child at this school. This school is beautiful, sir, it is nice to work in such a school. We are the best.

Most of our teachers have gathered a lot of information. We have learnt a lot. I wish I could go to other schools to go and share their knowledge with other educators and change the lives and minds of other educators.
I once read a book by John Maxwell where he talked about success. He says most people attach success to wealth, many cars or a lot of money but he says success is when you bring positive change to other person’s lives then you have succeeded.

I truly believe that if I can get to another school, clean up the school, and change things around, I understand that I will have succeeded.

In this school we work sir, I am not just saying these things to buy your face.

We are really matured at this school, in this school we win, we were once awarded a R100 000 rand because of being the ‘best performing school. We used this money to buy books for the library and the rest for renovating the laboratory.

**Question 9: How do you manage school fund?**

**Answer:**

Finances in this school are used according to policy. We issue out reports now and again. We use transparency in everything we do. When money has been deposited into the school’s account, the principal calls a meeting with the finance committee and the SGB members to give them a report regarding the money. The principal shows the bank statement to the members.

**Question 10: How does the SMT support you?**

**Answer:**

The School Management Team of the school listens to the advice given by the staff members. The SMT supports staff members with everything. I really thank God for the kind of leadership we have in this school, they are energetic and have a vision. The School Management Team that listens and understands.

**Interviewee no: 2 (H.O.D)**

**Question 1: As the member of the SMT how do you support the staff?**

**Answer**

I am a member of the SMT and my responsibility is to support the staff to perform their duties here at school. I also support educators in their personal life because it
is important for every educator to perform. He or she must be mentally ready so that he/she can teach learners. We also ensure that CAPS is effectively implemented.

**Question 2:**

As far as extra mural activities is concerned, how do you perform?

**Answer:**

Our school is doing well. If you check the track records, you will notice that we participate up to provincial level. As educators we told ourselves that we don't just participate at the beginning of the year we took an oath that as the sport committee we will be competing up to the provincial level and we strive to achieve our goal.

**Question 3:** How do you communicate with parents?

**Answer:**

Communication with parents is very good we invite them for session such as sectional meetings to come and check the work of learners. If the foundation phase is holding a sectional meeting all foundation phase educators will attend.

If we are holding a general parents meeting, as we normally hold them on Sundays all educators will report at 07:30 in the morning. Parents and educators will sign attendance registers to show that they have attended the meeting. In emergency meetings we ask a certain community member to use a loud speaker to inform parents about the urgent parents meeting; Indicating the date time and venue.

If a learner has a serious problem we only invite the parents of that learner to come and solve the problem.

**Question 4:** What do you think the reputation is at your school?

**Answer:**

Our reputation is very good as a person working in this school you always hear from other educators congratulating you in everything you are doing. They will also ask you to share with them.

**Question 5:** What time do you knock off?
Answer

Systems have changed, in other schools educators live at 14:30 hence we say if educators still want to leave at 14:30 they will never be like our school. They really need to start where we have started. 14:30 is just a time it does not mean you must pack and go home. If you look at your watch it is 15:00 and we are at school, we leave at four o’clock everyday not only on Wednesdays but everyday because educators want to excel in everything they do. We are trying to build a good nation. By being here at school until late, (It is not like we are being paid). If you go outside, there is netball, soccer, skipping and debates. The thing that makes up reputation is commitment.

We don’t leave early because we do arrangements for the next day. It is not only for extra mural activities. Even our learners some of them are staying very far in Amelia section but they don’t leave early because they enjoy being here at school.

The issue of time is not an easy thing you need to practice. It takes one’s guards; it is not an easy thing. For you to achieve you cannot do it alone, it is a team effort.

Question 6: How many primary schools are there in Sasolburg?

Answer

There are about 10 primary schools.

Question 7: According to your evaluation which is the best primary school in Sasolburg?

Answer

Our school is the best. The school has won one hundred thousand rand in 2005 as the best performing school. We are proud of this school.
Interviewee no:3 (Deputy principal)

Question 1: How do you manage extra-curricular activities at school?

Response

In extra-curricular activities each committee sets a standard. When we participate we don’t just participate but we aim very high, our target is to reach provincial level. In most cases we do reach our objectives. It is not only the extra-mural activities, the surroundings of the school, we are aware that the school has to look beautiful. The surroundings must tell you stories about the kind of a school you are in.

Every aspect ya rona it makes a mark. Ha o kena ka tlaelaseng, o fumana order le makgethe.

Titjhere e ruti lwhe hore tlaelase ya hae ke ofici and we are all managers at different levels.

Learners are always encouraged to manage their school work

Bana ba sekolo sena o kgona ho ba bona ka moaparo wa bona hore ba kena sekolo. This shows the reputation involves a lot of aspects.

The principal and every staff member knows that when he is always carrying our name. Learners also know that the school uniform means a lot and when they are seen by the community they will tell you that it is a child from this school.

Reputation of school is up held by everyone including factotum (cleaners). Educators and learners know that we put our trust on them. Educators know that they must be in class teaching learners. Even in the kitchen everything is above according to plan.

Question 2:

How do you communicate with parents?

Response

Communication is done through letters. We write letters to parents to inform them about parents meeting or any other activity.
We are also planning to improve our communication by using latent technology where we are going to inform them via sms (cell phone messages) we want to keep parents updated in each and every little things motswadi e mong le e mong o lokela ho tseba se etsahalang sekolong. Kantle ho mangolo ho na le mokgwa o mong jwalo ka "Sectional meeting" moo batswadi ba Foundation or Intermediate phase ba memelwang kopano ho tla ba hlalosetsa ka thuto ya bana le ka moo ba sebetsang ka teng. Rena le kopano ya batswadi ba bana kaofela ba bitswang ho tla hlalosetswa ditaba ka kakaretsa.

Kotara e nngwe le e nngwe e ba le dikopano le batswadi tse fapaneng hobane meelele e fapanes jwalo ka ho kopa tshehetso ho thusa bana.

Kopanong ya "Sectional meeting" ke moo re hlalosang tshehetso ya bana le ka moo re hatelang pele ka teng.

Kopano ya "Sectional meeting" key a bohlokwa mme re kgothaletsa motswadi e mong le e mong ho ba teng hobane re bua ka dintlha tsa bohlokwa tse amang thuto ya bana ba bona.

Ha motswadi a sa tla o lokela ho hlalosa ke ka lebaka lang a sa tla ho utlwa hore ngwana wa hae o sebetsa jwang. O lokela ho hlophisa letsatsi moo a tleng sekolong ho utlwa hore ngwana o sebeditse jwang.

Taba ena e thusa hahalo bakeng sa discipline (boitshwars).

**Question 3:**

How do parents assist in extra-curricular activities?

**Response**

When it comes to extra-curricular activities parents are also informed about the budget and about the activities we are planning to undertake. Parents are also supporting our project.
Question 4:

You probably have 8 to 9 primary school in Sasolburg. If you have to rate your school, at what level would you rate it in connection with curriculum as well as extracurricular activities?

Response

I will rate it at 7 out of 10 because there are issues. I feel need some improvement and also considering change in management. Things are going back to normal and there is some improvement.

Question 5:

SGB election were running in April this year. Many school experienced some problems as far as attendance of parents. Did you experienced such problem?

Response

Our SGB elections went on smoothly. Our parents attended in big numbers because they were informed about the elections. Advocacy was done correctly.

Parents were always reminded during parents meeting, sectional meetings and through letters about the date of the elections.

Elections committee was established and through preparations were done for the elections. Fundraising was done and a tent was elected on the day of the elections. Refreshments were also

Matitjhere le wona a bapala karolo ya bona ya ho kwetlisa bana, basebetsa ho fihlela mantsibuya ka hora ya bone. Bana bona ha ba bapala le dikolo tse ding ba atisa ho hlola. Lebaka ke hobane matitjhere a bona a dula a ba kwetlisa haholo.

Question 4
Ke bona lebala la sekolo le bohela le le letle. E be sephiri sa taba ena ke sefe?

Answer
Ntate mona ke kena mosebetsing ka hora ya botshelela hoseng. Kelokela ho bula diheke bakeng sa bomme ba phehelang bana le matitjhere a fihlang hoseng haholo. Ba bang ha re fihla re fumana ba se ba eme hekeng ka hora ya botshelela. Ha re fihla feela re se hlwekisa sebaka sena le sekolo ka kakaretso hofihlela ka hora ya bona mantsiboya ha re tjhaisa.

Question 5:
Ka tjhadimo ya hao mona sekolog sena e be bana ba bolokehile

Answer
Haholo ntate. Ha sekolo se kena diheke tsa sekolo di a kwalwa. Ha ho na ngwana ya tswang ka heke bana kaofela ba ka di phapusing ba a rutwa. Lematitjhere a mona o keke wa bona a ntse a tsamaya ka ntle ba dula diphapsuing.

Question 6:
Musebetsi wa ho hlwekisa sekolo o ithutile wona mona sekolog sena?
Answer

Dihora tsena tse ngata tseo re disebetsang ke boitelo feela ba rona. Ha re lefuwe ho kena hoseng ka 6 empa e le boitelo feela hore sekolo sena se dule se le makgethe.

Question 7:

Ho ya ka tjhadimo ya hao, ke sekolo sefe se ipabolang ka hara Sasolburg?

Answer:

Ke hopola hore sekolo sa rona se e pabola haholo ka hara motse ebile se a tsejwa.
SCHOOL C

Interviewee (NON TEACHING STAFF)

Question 1

How is the reputation in this school?

Response

The reputation in this school is good because when we look at the history of the school, it is the first school in this township. Even when we check the results of the school in the past 6 to 7 years, it has the best results over all the other schools in this township.

When we talk of teaching and the sports, last Saturday our boys under the age of 16 were competing at provinsial level, they won and came back with a trophy. This is a good school when it comes to education and sports.

Question 2

While you are still talking about the extra-mural activities, how do you perform in this school, and what is the secret behind your success?

Response

We have soccer, netball, choir and volley ball. We achieve more because we start early in the year with our programmes, we do this because we want to be ready during the competition time. Few days ago we our learners were playing table tennis, chess, and netball with a neighbouring school, our teams played very well. We are in the process of increasing participation among learners. We would like to see more learners participating. Our teams practice every Wednesday. There is only one thing that brings success to sporting activities and that is 'discipline, because without discipline it becomes very difficult to ensure that learners compete with others. We try to include young learners who are starting with us after their primary education.

We know that they sometimes think they are old enough not to partake in the activities, they give us problems, but we help them to use the talent they were given
by God. It is only discipline and practice that we are able to succeed. We do not discriminate against girls we also support them.

**Question 3**

Thank you for telling me how you do sport. Regarding teaching how is this school performing?

**Response**

In this school we have dedicated educators. Everyday in the afternoon we have classes for an hour. Teachers talk amongst each other regarding additional morning classes and afternoon classes.

When schools are closed during the Easter holidays, in this school we continue with classes, even during the winter and September holidays we do not close, to try to enhance the performance of learners. This plan helps a lot because when there are problems, that is if learners are not performing well in a certain subject, this is detected early and remedial work can be given to learners.

**Question 4**

How is your communication with parents?

**Response**

We have learners who have discipline problems, they are given letters to their parents, but before a learner comes with his or her parent to school, he or she cannot come to school. Regarding performance we have meetings every term where parents and teachers talk bout the performance of learners. There are also meetings with the School Governing Body where members are given report on the performance of learners in each term of the year.

**Question 5**

Are you getting enough support from parents?
Response

It depends on the aspects I have mentioned earlier on, regarding the discipline of learners, we sometimes get support but sometimes we do not. This is because some parents are working and that is why they do not come to school when we need them. Parents that are working do not like to be called to school, they therefore become very angry with educators that call them, they complain that they waist time coming to school whilst they should be working. Regarding sectional meetings, parents support us, a lot, except those whose children are ill disciplined, they do not support us at all.

Regarding all the parents we get support of about 50 per cent. We use correspondence and the community radio to communicate with parents, especially when we want them to come to school for a meeting. The problem is that we do not get a good attendance that we expect in these meetings.

**Question 6**

What role do parents play in this school?

**Response**

Parents do not play a very big role here at school, except when the teachers know of a certain parent that plays soccer in a team in the township, and he is good in that, then we invite him to school to help us with the training of our soccer players.

**Question 7**

I see a lot of trophies here, did you get them in one year or over many years?

**Response**

We got these trophies over years. A year does not end without us getting a trophy. As I said earlier on, we got these two trophies last Saturday. We got them from the provincial, we were the finalists for soccer under 16.

Others are for the school choir where they got position 3 in the whole province and we got others in the past years.
Question 8
How do you celebrate the achievement of the school?

Response
At the end of each year we have what we call the parents day where learners who perform well in class receive awards and those that compete up to the provincial level.

Question 9
You probably have 4 secondary schools in Sasolburg. If you have to rate your school, at what level would you rate it in connection with curriculum activities?

Response
I can give the Nkgopoleng secondary school 8 out of 10.

Question 10
Why do you rate your school 8 out of 10 can you elaborate?

Response
I say this based on the following aspects: academic performance and sport where our learners are excelling. Our pass rate is good and the way our sporting codes are schools struggle to beat us.

Question 11
How does the SGB support the school?

Response
This is the committee that support us regarding school rules and policies. Every committee starts by evaluating policies that are existing before it starts with its work, then it makes changes where necessary. The SGB also helps us with making sure that educators are appointmented. We had a teacher that was ill for some time, the Department could not give us a substitute but the SGB helped out by hiring a temporary educator in an SGB post. The chairperson of the SGB is a person who
knows what he is doing, even when he explains the processes to parents, he talk like a professional.

**Question 12**

We are from SGB elections recently, how were these elections in this school?

**Response**

Sir, here in this school, the attendance of parents in the first meeting was poor, then the meeting was postponed for another date. The following meeting was successful in that the elections were done.

**Question 13**

Looking back at the first meeting, where do you think the problem was regarding the poor attendance of parents?

**Response**

This is the 10th year that I am working in this school. Parents are afraid to be elected in the school governing body. They want other people to be elected and not them, immediately after the SGB elections they attend well in meetings. I think they are afraid to take responsibility.

**Question 14**

Regarding school finances, how do you work?

**Response**

We have a finance committee that is made up of the principal, parents in the SGB, educators that have accounting to help parents and to explain to them how money is spent in the school.

**Question 15**

If it can happen that one of the learners get sexually abused, or injured here at school, then people the media come for the story, how can you deal with that?
Response

We have never been in such a situation before, but here at school we do not have the expertise to talk to the media. I do not know if the principal has a right to talk to the media. It may be that he has to refer them to the Department of Education. We had a problem of learners who were fainting in this school, people were blaming satanism for this. During this time parents who were flocking to the school, we told them what was happening. With parents that were working the principal had to talk to them over the community radio, he explained to them what the school was experiencing so as to satisfy them.

Question 16

How is the relationship between teachers and the non-teaching staff?

Response

There are problems here at school, especially when we talk about the leave for teachers. There are times when the teachers take days after the leave before they fill in their leave forms, this is against the policy on leave. Teachers are supposed to fill in their leave forms a day after they are back from their leave. When a clerk goes to the teacher to make him or her aware that she or he has not received the leave form, teachers usually respond by saying that they do not report to clerks, but she can talk to the HOD about it. We ended up saying that teachers have to submit their leave forms to their HODs and the HOD has to submit the leave form to the principal who will give it to the clerk. We once made a resolution that educators should be given a leave without pay especially those who dealy to fill in their leave forms, and those whose reasons for leave are not clear or without proof.

To deal with this problem were helped out by the HODs.

Interviewee

Question 1

As a Head of Department in this school, how do you perceive its reputation?

Response
Sir, as an HOD in this school, this school is one of the oldest in this area. The school is one of the most respected schools in Zamdela. The parents and community members in Zamdela respect the school a lot. Parents like enrolling their learners in this school. The reason why parents like to enrol their children here is because the school gets excellent results at the end of each year, the second point is that teachers here work very hard. In mathematics and science learners are doing very well.

There have been bad times though, there was a bad spirit, there was something about burning the school down. The support of the parents and the community members was excellent. They assisted us with fixing the areas of the school that were damaged, things went back to to normal.

**Question 2**

What is the secret behind the school’s success?

**Response**

The big secret sir, is that there is not even one teacher that works alone. We work as a team. We assist each other, you will find that the teacher for accounting that teaches grade 12 is assisted by teachers that are teaching the same subject in grades 8 to 11. The ultimate goal is for learners to pass at the end of the year.

Teachers work together, teachers teaching in grade 12 do not see themselves better or look down on teachers teaching in grades 8, 9 and 10. We work together, we assist each other. Another thing is that during holidays we do not close, we make sure that the extra time during holidays is used effectively.

On Saturdays we focus on maths and science. Learners attend extra classes on Saturdays. We usually request for help from people who know Maths and Science to come and assist us so that learners can do well in these subjects.

**Question 3**

What support do you get from the School Management Team?
Response

As a member of the SMT, I try by all means to assist a teacher who has a problem. I assist teachers with their preparation of lessons. I hold meetings for my department for a teacher that has a problem with presentation of lessons in his or her class. In these meetings all of us assist the teacher, this is a way of developing the teacher. An HOD has to have a good relationship with teacher, it is not just because I am an HOD I know everything, no, we have to assist each other.

Question 4

I saw trophies in the principal's office, did get all these trophies in one year?

Response

These trophies were received over years. We have a soccer team which is the main sport, we also have netball and jum majorrettes. We also have a choir, every year the school wins a trophy or two. This year we attended choir competitions we got a trophy. They proceede to the provinsial level where they also got a trophy.

Question 5

What then is your secrete to your success, what do you do to succeed?

Response

The most important thing sir, is teachers' commitment and sacrifice that teachers make. When it is the teacher’s responsibility to train learners on a certain sport he or she makes a sacrifice so that learners can gain skills and knowledge of the sport, and learners notice that educators do their work whole heartedly and with commitment. This encourages learners to work very hard.

Question 6

How do you celebrate your achievements in sports and in curriculum matters?

Response

Regarding learners who do well in sport, the school makes a celebration, on this day they get awards, and those who performed well academically they are introduced to
other learners in the assembly. Later that day there will be celebrations of the awards, all educators are also included in these celebrations.

**Question 7**

How do you communicate with parents?

**Response**

Parents receive letters from the school. These invitations are sent to parents through learners. We meet with parents to explain the performance of their children here at school. The report is usually about academic performance as well as sporting activities. We also discuss problems that educators encounter with learners.

**Question 8**

Now, when you invite parents to a meeting, how is their their attendance?

**Response**

Parents do attend meetings, but it is only 50% of them that attend because others are working outside Sasolburg, they work in the Gauteng province. Those who work in Sasolburg try to attend meetings when they knock off at 17h00. Parents who work outside Sasolburg are encouraged to avail themselves when they are not working, where they are given feedback on learners’ performance or sporting activities.

**Question 9**

I had you saying that parents like to register their children here at school, what kind of support do you get from parents?

**Response**

Parents come to school to support teachers when we have invited them, and when there are problems here at school they do come, this is an indication that parents have interest in the school. When they hear that there are learners that are misbehaving they come, even if they are not theirs, because they do not like their children to learn to misbehave from those that have behavioural problems.
Question 10

Do you experience problems such as having less learners that enrol which may lead to redeployment of teachers?

Response

No we do not experience such problems because learners that enrol are according to the teacher ratio, we have never experience problems with decreasing number of learners where this can lead to redeployment of educators. Weenrol learners according to the number of classrooms, we sometimes turn down applications because of the shortage of classrooms.

Right now the number of learners that we have is 1500 and 50 educators

Question 11

How does the School Governing Body support the school

Response

The school governing body is composed of parents who are committed to support the school. I can quote a few things that I have seen the school governing body do. Many times when go out on an excursion with grade 12 learners the school governing body will fundraise to support those learners who will be attending educational camps, the aim of fundraising is actually to assist parents so that they do not pay much for the learners that attend educational camps.

We also notice how the school governing body and the parents do their level best to deal with the spirit of satanism.’ They invite pastors and prayerful members of the community to come and pray for learners and teachers. During holidays the school governing body as well as parents come to school to paint and to clean classrooms.

Question 12

How do you manage finances here at school?
Response

The school funds are managed by the principal, the school governing body and the finance committee. Here at school as teachers we are allocated budget for each department. This budget helps the departments to spend money according to the budgets. We are also given a report on how money has been spent, and where there are shortages we are also informed.

Question 13

Who is involved in drawing up the budget?

Response

The school governing body and the financial committee are responsible for drawing up the budget. The budget is drawn according to the needs of the department, that is the departments first submit their needs to the finance committee.

Question 14

If there is a learner that is sexually abused or a learner who is injured at school then you see media coming to the school to interview whoever they come across, do you strategies in place to deal with such situations?

Response

In this school sir, we have a guidance committee which helps learners from child headed households, and children who experience problems but are afraid to tell their educators. We identify these learners and refer them to the lady who assists such learners, so that they can be free to talk about their problems.

Question 15

Do you have a policy that gives guidance on how to deal media?

Response

No sir we do not have such a policy in this school, we refer such cases to the principal.
Question 16

There are 4 to 5 high schools in this township. How can you rate your school out of ten?

Response

I can give this school 9 out of 10

Question 17

Why do you rate your school 9 out of 10.

Response

In this school we excell. I believe you have seen trophies in the principal’s office we also excell in the academic performance and sport.

It is true that when people are passing they see learners outside, it is because we are not allowed to beat them up. We only try to keep them outside the school premises so that they can realise that they came late. After that we take them in groups. According to the support of educators for grade 12 learners and behaviour of learners we still do better than other schools. It is true that our learners are still involved in gangsterism we have an adopt a cop, they here at school, we work together.

Even here at school we have a police offer who is comes to school on a daily basis, he assist us with checking on learners who smoke dagga and thos who use drugs. This policeman is still working for SAPS we just requested him to assist us. He has been allocated a room here at school so that he can be nearer even during holidays he assists a lot, people do not know that we have a policeman in our premises. In the past we experienced problems with buglary where computers were stolen, there were other things that were taken. That is why we encourage this policeman to stay here at school to be the watchdog.

This policeman helps us a lot to reduce crime within the school.
**Interviewee**

**Question 1**

Motswadi ke rata ho tseba hore sekolo sena sa Nkgopoleng jwaloka o sebetsa mona, ke sekolo se jwang?

**Response**

Sekolo sena matsatsing ana ha se kgotsofatse ka baka la ditshila tse mona. Ha se sa tshwana le pele le ka moo keneng ke setseba ka teng. Seholoka matsoho hobane ha o tatima hohle mona ha ho kgahlise. Motho ya sebetsang mona o mong fela mme sekolo sena se sehlo haholo.

Lebaka leng ke hobane ho sa tswana kgethwa lekgotla la sekolo le letjha mme dintho ha di eso kgutlele madulong. Mohloeng ka mora nako ho tla loka lekgotla le tla hira batho ba tlhag ho thusana le ntate ya sebetsang mona.

**Question 2**

Taba ya thuto yona ce bona jwang?

**Response**

Thuto e teng mona sekolog sena, sekolo sena se sebetsa hantle haholo. Bana ba mona ba ya atleha ditlutong. Ngwana waka o ne a kena sekolo mona empaa o se a pasitse o sekolog se phahameng kwana Gauteng. O ne a etsa mathematics le physical science. Ke selemo sa hae sa ho qetela university

**RESPONSE**

Dipapading batswadi ba tshehetsa feela ha rena le bitsitse. Mohlomong hona le baeti ba etetseng sekolo sa rona moo ba ya tla. Ho tla tshehetsa.

**QUESTION 7**

Ke karolo e fen geo lekgotla la sekolo le e bapalang mona sekolong?

**RESPONSE**

Lekgotla le hlokomela hore dintho di tsanaya hantle mona sekolong le tsamaiso ya ditjhelete tsa sekolo le ho hira matitjhere le ho lokisa moahao le difensetere tsa sekolo.

**QUESTION 8**

Ke bone mohope ka ofising ya mosuweholoho. Mehope ena e mengata e fumanehile jwang?

**RESPONSE**

Bana ba rona ba rata bapadi ya maoto haholo. E bile ba e tseba haholo. Papadi engwe eo bae ratang haholo ke mmino wa dikwaere (choral music)
QUESTION 9

Ka mora tlholo sekolo se keteka jwang katieho ena e kana?

RESPONSE

Hore bana ba kgothale ho sebetsa ka thata, bohole ba atlehileng ba hlahiswa pareiting mme ho hlaloswa ka moo ba sebeditseng ka teng. Ha tjhelete e le teng mosuwehlooho a ba etsetse moketjana wa ho ba leboha le ho ba kgothatsa

QUESTION

Jwale batswadi ba bona ba sebeditseng hantle bona le ba leboha jwang?

RESPONSE

Batswadi bona ba bitswa ha bana ba fuwa disetifiqueiti, hore bat le bat lo kgothatsa bana ba bona ha selemo se feela.

QUESTION

Baahi ba motes wa Zam德拉 ba tshehetsa sekolo sena jwang?

RESPONSE

Baahi ba tshehetsa feela ha ele hore kopano di “donation” o ngolla makotla wa sekolo feela.

QUESTION

Ha ho ka ba le kotsi yah ore ngwana a betwe mona kappa a tswe kotsi mme ha le sheba le bone baquoltsi ba ditaba ba se ba botsa batho le bona jareteng ya sekolo, le ka sebetsa jwang ntlheng ena?
RESPONSE

SCHOOL D

INTERVIEWEE NO:1 (HOD)

Question 1

Sir when we talk about the reputation of a school we are referring to the image and identity. Can you tell us more about the image of your school?

Answer:

In our school we had a problem because it was a new school and we were using a building in town. This resulted in our learners not being satisfied with the building because it was very old and one day they met and demanded that the Department Of Education must provide them with their own school within a township because they walked a long distance from the location to town. Most of the learners were unable to pay for transport this resulted in them toy-toying and joined gangsters to help them fight for their rights.

Later on when they got their building in the township, they kept on joining gangsters and their behaviour was not acceptable and nobody gave us a chance because our school was labelled as the worst school because of the stigma and you know that schools are measured buy their performance in grade 12. What was surprising was that they managed to do well in their first examination and they got about 70% pass rate. As a school we never got less than 55% in the examinations.

In sports we did well, we also had learners who took part in competitions and represented the school in language competitions. we also had learners who went overseas and performed well in Arts and Culture, for volley ball we got up to provincial level we did very well sir. We were given a university status by the Deputy Minister of Education. He also came to visit our school to congratulate the school for 100% pass in Maths and the following year for grade 12 Geography. I teach English and my students got 100% pass in grade 12. there are also other educators who did well in their subjects, our school is the best although the stigma is still there. Other people say that our learners misbehave, they don’t have good manners but they are not different from other learners. What I would say about our learners is that they do behave well compared to other schools. Because recently there was a big problem in other schools as learners were toy-toying and boycotting classes.

The learners even came to our school to force our learners to join the strike but our learners told them that they should solve their problems and live them alone, the learners never joined the strike, that alone shows that our learners are not that bad. In every school we do have some educators who experience social problems and who will not perform as expected, That is why I say we cannot say we are a dysfunctional school because our learners try to get good results since we are blessed with good educators in grade 11 and in grade 12 who make sure that they do their best to help those learners to pass.
Question: 2

Are people not convinced that this is a good school?

Answer:

Yes, people are going to discover that we are a good school because we have a very dedicated acting principal who is also a workaholic. She is involved in sports and athletics and she is a good coach. As far as I am concerned there are some learners from our school who are occupying high paying jobs in industry and some of them come back to thank the school. In our school we have two sectional department like we have two deputy principals. The first one is in charge of the general education and training and the other one is in charge of F.E.T (further education and training). For example grade 10, 11 and 12. Our work is structured in such a way that everyone knows where to report not all educators fall in one department. There is a thorough follow up and support from the deputies.

In drum majorettes and in sports we have educators who are officiating and we also have pastors in our school. At times you may find that there are some people who are demoralised by one or two problems but all in all we are trying our best.

There was a year I think in 2008 where I was touched by a learner who did not have a school uniform and she was in grade 12. The person who helped me was my wife because she insisted that I should buy school uniform for that learner, and that learner did very well in the examinations and passed grade 12. We also tried to assist those learners who also experience social problems at home. We also involve our educators who are pastors like. We are five pastors in school and we ask for some clothes from our community and congregations for those learners who are needy.

Question3

How do you communicate with parents?

Response

Sir we communicate through our SGB representatives. They call parents meeting and they do address them. Sometimes we ask the SGB reps to talk to learners about good behaviour. We also invite parents to come and check the work of their learners. We also ask parents to assist in sports and in athletics. Those who are coaches of soccer and netball they come and help us.

In terms of discipline we write letters to parents because we don’t use corporal punishment or abusive language. After we have called the parents we also make follow up to see whether the learner’s behaviour has improved or not. Furthermore I show much care about him or her by calling him or her and ask if he or she does cope with his school work and I offer my assistance where he or she experiences some difficulties. The child becomes
relaxed and appreciates what I am doing. He or she notices that I only want and wish him or her the best in life. I have also visited those learners who have social problems to their homes and encourage them to do their best.

I also assist those learners who passed grade 12 by showing them how to apply for a job and how to behave in an interview.

**Question 4**

As a member of the SMT how do you support?

**Response**

Aah! It's a challenge/it's difficult since I am new and acting one thing I have realised is that they (teachers) think about always being attacked. They always feel threatened by their supervisors (HOD's). Even if you want to develop them they will still feel unsecured.

If you invite them to the meeting they will not attend deliberately. What I do is that I go to them individually and give them feedback of the meeting they did not attend deliberately and don't ask them why they did not attend.

I've also realised that if the work is not done they sometimes want to see the response. When you ask them to submit their files the will delay and will just give me the file as it is. You evaluate and write the report, if there's some information which is missing in the file, I will just make copies and put them in the file. Instead of attacking the educator you assist him or her and show the importance of having a file updated. This has helped me a lot because there was an educator whose file was not up to scratch and after assisting that educator he became the best educator. People should be treated like people and not like animals. Our role as SMT members is to support and help educators.

**Question 5**

For as far as the school governing body is concerned, do they really support the school?

**Response**

Yes the SGB support the school.

**Question 6**

How do they support the school?

**Response**

They support the school I terms of organising e.g. if we need a parents meeting they make sure that the majority of parents attend. When coming to teacher appointment they excel because they look for a teacher who deserve to be appointed. Unlike other SGB members
from other schools they are controlled by a remote from the district. They don't know how much power do they have and they have the prerogative to do the right things. Our SGB make sure that the people who are appointed here deserve. Our SGB also know that the educators who are appointed here know their work and are capable educators. Even at the district office they know me that I am in charge of geography and English in grade 12 and that my learners obtained very good marks in English. Some of the SGB members are the parents of these learners and they make sure that these learners get the best education. The SGB also plays a vital role in disciplining learners who misbehave. When a child does not wear a school uniform after we have talked to him or her, we invite the SGB to intervene and attend to that case. They will even go to an extent of going to the learner’s home and talk to the learner’s parents. If the parents cannot afford to buy school uniform, the SGB will fundraise and buy school uniform for that learner.

**Question 7**

In April this year schools were busy electing new SGB members. In some schools attendance of parents was not good and they had to postpone for other dates. Did you also experience the same problem?

**Response**

No attendance was very good. Parents came in numbers and this shows that our parents support this school. They go all out when they are invited to attend meetings.
SCHOOL D

DEPUTY PRINCIPAL

INTERVIEW NO: 4

Question 1

Sir can you tell us more about the image of your school?

Answer:

In responding to your question I wish to start by the behaviour of our learners. Our learners are very committed to their work, their behaviour is good. We also don’t experience big problems as far as their behaviour is concerned. They attending classes in big numbers and the rate of absenteeism is very low. They stay at school from 8 in the morning until 3 in the afternoon. A good thing that keeps learners is the national school nutrition programme. Food is cooked here at school and every learner is enjoying a hot meal everyday at 10am in the morning. Since 2001 I was the chairperson of disciplinary committee and I have learnt that most of learners did not stay until school is out at 3 because they were hungry. Some of them don’t have parents they are orphans. They stay with their sisters or brothers, so they lacked parental care. Some of the learners have only 1 parent who is unemployed. We also discovered that most of the learners who misbehaved were those learners who did not have parents. We also discovered that they are the ones who needed some help.

Question 2

What type of help do these learners need?

Answer

These learners are vulnerable they need help from in different ways. They need help from health departments, social department as well as social security department. As the chairperson of disciplinary committee I contacted the nursing sister from the local clinic and adopted her for our school. She was going to assist us with learners who experience health problem. All learners who experience those challenges will be referred to her. We also adopted a social worker who will be responsible for all learners who experience serious behavioural problems. The police officer was also adopted to assist with learners who experienced serious misbehaviour such as theft, doing drugs etc. In such cases an adopted cop will be invited to talk to such learners, showing the danger and the disadvantages of those wrong deeds. By involving the above- mentioned stakeholders the behaviour of our learner’s improved a lot. This has taught us to look deep into the root cause of the problems.
Our educators are also very committed, although there are only few who still need to be motivated. Teachers regard the grade 9 learners as matric class. They start preparing them for the final matric exam. This had instilled some confidence to our learners and is highly motivated.

Our teachers work as a team and leaner’s had learnt that there is a collective among our teachers. We also make use of periodic time table where educators and class reps sign these registers. If the educator did not arrive in time or did not honour his or her period, he must account. We also have monitoring and control tools, a plan for the whole year indicating that work will be controlled on certain dates. The SMT meets every week to check progress in such meetings we look at a number of things such as loopholes, outstanding issues and try to address them.

**Question 3**

How do parents assist you?

Parents assist us in many ways. If a leaner misbehaves we immediately invite parents to assist us and parents do not hesitate they provide help he and there. When we have school activities the parents assist us a lot.

**Question 4:**

How do you manage extra-curricular activities?

**Answer**

Our school performs well in extra-curricular activities. Our acting principal is one person who is actively involved in sports and she assists in coaching learners. We also invite parents to assist us with the skills they have. We also teach our learners to take sports very serious because some of them are talented. We also teach them that sports assist learners to stay alert and it improves their mental capacity.

**Question 5**

As far as performance of learners in class (curriculum matters) what can you say?

**Answer**

In 2010 we achieved above 70% in grade 12. In 2011 we obtained 60% in matric results.

Our grade 9 learners do not do well. We are a bit worried although we are trying to improve the performance. We ask parents to help us with their home work. Extra classes are also conducted to improve performance.
Question 6

How does the community support the school?

Answer

The community is assisting us by providing school uniform to needy learners.

Question 7

Do you think you have got plans to deal with a situation where the media can come to school to interview any educator about a child who was raped or hurt?

Answer

At school we have a safety committee. We treat cases which are at our level but those which are serious we refer them. We are presently improving our policies to be compliant. We involve structures or stakeholders such as health department, social development, safety and security department, so that they can advice us to keep our policies compliant. The construction of the road next to our school is busy and a number of accidents to our leaner’s had occurred. We contacted the Dept Of Traffic to assist us, when the construction is completed we are going to have humps, so that the speed is reduced to protect our leaner’s.

As far as the media is concerned we have experienced a problem before where the media alleged that one of our leaner’s was raped and the Principal as well as the Deputy did not report the case. Another problem we are experiencing is the cell phones. Learners bring cell phones to school and they disturb or distract effective teaching. They take photos of educators and later these photos appear in websites like face book. We have requested parents to assist us not to allow their leaner’s to carry cell phones to school. Some of these leaners are naughty and full of anger. When a teacher reprimands him or her is almost ready to fight and some of our teachers are short tempered they find themselves exchanging blows with learners. When this happens leaner’s begin to take photos using their cell phones.
SCHOOL D

EDUCATOR

INTERVIEW NO: 2

Question1

What do you think the current reputation is at your school?

Answer

When I started teaching in this school we were utilizing a building in Sasolburg town. The school was far from the location and leaner’s used to walk to school because they could not afford to pay taxis or buses to transport them to school. This posed a very serious challenge to our leaner’s.

Some of our leaner’s could not arrive on time and others could not reach their destination. Some of the leaner’s met with friends on the way to school and started smoking dagga and others went to town to do shoplifting. When we were busy teaching we would see police coming to school to report that some of our leaner’s were arrested for shoplifting and in possession of dagga. Police were always complaining about the behaviour of our leaner’s. When we call meetings for parents very few parents attended those meetings because of the distance they were supposed to walk. Others were afraid of attending those meetings because of the rumours which were spread saying our leaner are very dangerous. They carry knives, smoke dagga ect. That was the sad part of our school.

After some few years the Department of Education announced that we were going to utilize our own building in the location. We were very happy to lean that because we thought our leaner’s would attend school because there was no need for them to walk long distances.

The challenge we faced /experienced was that parents and the community were scared of our leaner’s saying that they are in the location thus, it was going to be worse. They were scared of them saying that some of them were thugs. After some few years the situation improved and the attendance of leaner’s improved and parents started attending meetings after they discovered that our leaner’s were not that bad. We called parents to assist us to maintain discipline of our leaner’s and parents were on our side. Gates were locked and leaner’s were not allowed to move up and down during tuition time. When leaner’s misbehave we called parents to assist us. Even today our leaner’s are behaving well, we don’t have a serious problem as far as discipline is concerned.

Question2
How did you achieve this success?

Answer

We achieved this success through working together. Parents and educators came together to discuss the way forward. We talked about the school uniform and the importance of wearing it. We also talked about the dreadlocks that parents should not allow their children to have dreadlocks. Our parents assisted us and even today we do not experience disciplinary problems. Our learner’s wear uniform and their behaviour is good. We have worked very hard although it was not easy. I respect the parents of these learner’s they are good and responsible parents.

Question 3

How are your learner’s performing in class?

Answer

We work together as teachers. I do not hesitate to ask a teacher to assist me with a certain aspect of a leaning area if I know that, that a teacher is good at that aspect, there is a good team work and that is why we succeed and our learner’s are achieving good work.

Question 4

How does the SGB of the school support you?

The SGB of the school is very positive, they are on our side and they do a lot of work to support us. When we experience some problems of learner’s who misbehave, they intervene and reprimand those learner’s. Every parent or member in the SGB has an important role to play.

Question 5

How does the school management team support you?

Answer

Our SMT is very good and they are working very hard. They guide and assist us in many things. They also encourage team work all the time. The SMT supervise our work and give guidance where necessary. They really assist us.

Question 6

How do you manage extracurricular activities?

Answer

Our learner’s take part in different codes i.e soccer, netball, athletics. They practice every Wednesday and they perform well. We currently have learner’s who will be going to Canada for rope skipping.

Question 7
Is the school paying for their flight?

**Answer**

We have received some sponsors. This part of rope skipping is managed by the principal himself. This has motivated educators to work very hard because she has set the standard.

**Question 8**

If one of your learner’s can be raped or hurt and the media starts to interview educators about the incident, how are you going to handle that situation?

**Answer**

Our gates are always locked and the security is there to keep order. Media cannot enter the school premises without the permission. Before a person can enter the premises he must first get permission even our learners cannot leave the school premises without permission. A learner must produce evidence or must be in possession of a letter stating that he/she must be allowed to leave the school premises. People who are allowed to enter our premises are police officers.

Our security personnel or factotum plays a very important role in our school. They know that they must protect our educators and our learner’s. We always treat them with respect even if we have functions at school they know that we need their security and involvement.

---

**SCHOOL D**

**CLERK**

**INTERVIEW NO: 3**

**Question 1**

*When did you start working at school? What can you say about the image of your school?*

**Answer**

I arrived here at this school in 2010. Our educators are working well and they are committed. They are working together, very hard and there is a lot of team work.

**Question 2**

*How do you manage funds at your school?*
Answer

I am not working in the finance department. There is a clerk which is responsible for finance. I don't know much about finances. I am in charge of human resource department.

Question 3

If the finance clerk is not at work what happens to the finance department?

Answer

When the finance clerk is absent it becomes a problem because when it comes to signing some documents I refused because I did not want to see myself in big trouble of signing. I only assisted them in other issues.

Question 4

How do you work with teachers at this school?

Answer

We are working harmoniously with educators. Although these are some challenges but as far as leave management. At times teachers are reluctant to complete leave forms and that makes us not happy and at times our relations become sour.

Question 5

As you are in charge of human resource do you also do some extra-work such as SAMS Programmes.

Answer

At school we have HOD's who are supposed to do SAMS but because of a high volume of work we do assist them by entering marks and other programmes in SAMS.

Question 6

How do you communicate with parents?

Answer

We hold parents meetings here at school although at times we don't attend such meeting we type letters and send them to parents inviting them for parents meetings.
Question 7
Do parents attend those meetings?

Answer
Yes, they do attend such meetings

Question 8
Do parents assist you?

Answer
Yes, they do assist us more especially when educators experience behavioural problems of learners they really come and assist us. We write a letter indicating the school’s name, address, educators name, the name of learner who is misbehaving and the type of offence. In return a parent will come to school to address the problem. Parents also assist the school in many ways. There was an SGB chairperson who was very strict when coming to discipline. Learners were very scared of him because they knew he was very strict.

Question 9
If one of your learner’s could be raped or gets hurt at school and the media comes to interview educators about the incident, how are you going to handle that situation?

Answer
Our security is very tight. Those people who work outside they check and control the entrance of every person. Before they could enter the school premises they must first get permission from the principal.

Question 10
Do you have a policy which guide you on such matters?

Answer
We do have a school policy, but it does not cater for such incidents.

Question 11
How do you manage extra-curricular activities? Do learners play at school?
Answer

We have different sporting codes such as athletics, netball and soccer. Our leaner’s do take part in sports. We also have a sports ground to accommodate these leaner’s although they are not standardised.

Question 12

I saw the tennis court and a board written Lotto, What is it all about?

Answer

That is our sponsor which funded the erection of the tennis court. The school received money from Lotto to erect the fields and to buy sports attire for our leaners. For soccer players we don’t have fields our leaner’s use the local soccer fields.

Question 13

What do parents say about your school?

Answer

Our school is not that bad. Parents like our school and they like to register their leaner’s to this school. Our leaner’s are also like other children they are not that bad.

</tr>
<tr>
<td>Procedures</td>
<td>Policies, including stakeholders and transparency</td>
<td>There are policies here at school that include all stakeholders. When we develop these policies, we develop them in such a way that we include everybody. Everything is transparent and on top of the table.</td>
</tr>
<tr>
<td>Good leadership</td>
<td>Visionary leadership</td>
<td>We are fortunate to have visionary leaders who are known and who have knowledge of the policies of the department. Our former principal was also one of these leaders who want to see things happening here at school.</td>
</tr>
<tr>
<td>Good Knowledge of policies</td>
<td>Knowledge, confident, efficient</td>
<td>Each and every learning area besides the school policy has a policy and we know these policies. As the teachers we even know that when these policies. As the teachers we even know that when the Learning Facilitator comes he or she will be asking for certain information regarding that particular learning area. At times we remind the Learning Facilitator that the policy state that we should do this and that. For instance, I remember one day the English Learning Facilitator said teachers at school are well conversant with policies. We are very good as far as policies are concerned.</td>
</tr>
<tr>
<td>Parents &amp; Code of conduct for learners</td>
<td>Communication, good communication channels</td>
<td>The school has also a code of conduct for learners and parents know our communication channels. Everything is fine here at school.</td>
</tr>
<tr>
<td>--------------------------------------</td>
<td>---------------------------------------------</td>
<td>-----------------------------------------------------------------------------------------------------------------------------------</td>
</tr>
<tr>
<td>Good Behaviour</td>
<td>Less behavioural problems from learners, no dangerous weapons, gangsterism, dagga smoking</td>
<td>Because we do not have incidences of gangsterism here at school. We do not have children that are smoking dagga in the toilets and our relationship with the parents is good. We have a code to show that they understand and they will always guard against learners who deviate from doing right things. Our learners know what is supported to be done when they are at school. We don’t have bad cases of learners who carry dangerous weapons and learners who use vulgar language.</td>
</tr>
<tr>
<td>Lifelong learning</td>
<td>Emphasis on conduct, good values</td>
<td>We also ensure that what we teach our learners does not end here at school but that it has lifelong learning; they also carry our values and morals to their homes. The way they conduct themselves at school they must also do it at home.</td>
</tr>
<tr>
<td>Dealing with media</td>
<td>Consult with cops, social workers and a nurse. There are delegates who can deal with the situation</td>
<td>As far as the media is concerned, we can consult because we have adopted a cop, social worker here at school and at the clinic we have a nurse who has adopted our school. We can consult relevant people who can deal with that situation.</td>
</tr>
<tr>
<td>Partnerships</td>
<td>Social worker-orphans, social grants, child abuse cases</td>
<td>A social worker assists those learners who are from child headed families and she helps those parents who do not look after their children. She also assists learners who need social grants and lastly she deals with child abuse cases.</td>
</tr>
<tr>
<td>Partnerships</td>
<td>Parents helping with cleaning, sports and the District Office providing skills</td>
<td>Parents help the school with cleaning. In the foundation phase parents clean everyday after school. They share and they know who is cleaning on Mondays, Tuesday etc. No we don’t pay them; they are doing it for free, voluntarily. We only give them vegetables from our school garden. In addition parents who have soccer, netball volleyball skills they come on Wednesday to assist learners during sport activities. Even educators children who possess good sport skills come and assist our learners here at school. The district office is also assisting us.</td>
</tr>
<tr>
<td>Partnership</td>
<td>Community providing security</td>
<td>The community has something called “sense of ownership”. They are jealous about our school. They feel that they are watch dogs of our school. Although we know that criminals and vandalism is all over, but it is not right. At times you hear them saying principal the lights were not on last night, that alone shows they really care.</td>
</tr>
<tr>
<td>Enrolment</td>
<td>School attract parents and learners</td>
<td>During registration time, every parent wants to register his or her child at this school. This school is beautiful, sir, it is nice to work in such a school. We are the best.</td>
</tr>
<tr>
<td>Teachers have knowledge</td>
<td>Knowledge, trust in teaching learners is priority</td>
<td>Most of our teachers have gathered a lot of information. We have learnt a lot. I wish I could go to other schools to go and share the knowledge with other educators and change the lives and minds of other educators.</td>
</tr>
<tr>
<td>------------------------</td>
<td>---------------------------------</td>
<td>------------------------------------------------------------------------------</td>
</tr>
<tr>
<td>Reputation</td>
<td>Upheld</td>
<td>Reputation of school is upheld by everyone including factotum (cleaners). Educators and learner’s know that we put our trust on them.</td>
</tr>
<tr>
<td>Teaching priority</td>
<td>Teaching learners</td>
<td>Educators and learner’s know that we put our trust on them. Educators know that they must be in class teaching learner’s. Even in the kitchen everything is according to plan</td>
</tr>
<tr>
<td>Success</td>
<td>Positive change</td>
<td>I once read a book by John Maxwell where he talked about success. He says most people attach success to wealth, many cars or a lot of money but he says success is when you bring positive change to other person’s lives then you have succeeded. I truly believe that if I can get to another school and change things around, I understand that I will have succeeded.</td>

</table>

Here at school we work together with educators, we do not just do things. We discuss things and get ideas from everybody. I am in the
| Transparency | Good working relations | finance committee and I am also a member of the SGB. Our financial status is good because we hold meetings every month and issue 
We are able to continue with our work. In this school there is transparency. I am able to do HR work and the other educator can continue with finance if I am not there. We have been doing this work for five years now, and we do not encounter problems. |
<p>| Security at school | Every teacher has keys to their classes and a register is kept for stock purposes. The SMT members have implemented full control measures at the school. | Each one of us have keys to our offices, there is no problem. Even the principal has keys to our office. There is a register that one has to sign when she/he enters the strong-room he/she has to sign when he takes something and when he returns it. |
| Committee members | Are represented by the Chairperson when it come to entering the Strong-room | Committee members also sign when they take something from the strong-room. It is only the chairperson of a committee that is allowed to enter the strong-room and not everybody. |
| Protocol | Every going out communication letter needs to be approved by the Principal. | We are the clerks here, each and every letter or correspondence has to be given to the principal for approval, if he approves it is then that we type it and then we take it back to the principal for his signature. |
| Good Reputation | Parents want their children to be enrolled in this school | Sir this school is well known in the whole of Sasolburg. |</p>

<tr>
<td>Commitment</td>
<td>Dedicated educators Teaching during easter, winter and September holidays</td>
<td>In this school we have dedicated educators. Everyday in the afternoon we have classes for an hour. Teachers talk amongst each other regarding additional morning classes and afternoon classes. When schools are closed during the Easter holidays, in this school we continue with classes, even during the winter and September holidays we do not close, to try to enhance the performance of learners. This plan helps a lot because when there are problems that is if learners are not performing well in a certain subject, this is detected early and remedial work can be given to learners.</td>
</tr>
<tr>
<td>Parents involvement</td>
<td>Communication with letters school meetings</td>
<td>We have learners who have discipline problems, they are given letters to their parents, but before a learner comes with his or her parent to school, he or she cannot come to school. Regarding performance we have meetings every term where parents and teachers talk about the performance of learners. There are also meetings with the School Governing Body where members are given report on the performance of learners in each term of the year.</td>
</tr>
<tr>
<td>Discipline</td>
<td>Feedback on learner’s performance.</td>
<td></td>
</tr>
<tr>
<td>Behavioural problems</td>
<td>Discipline measures in place</td>
<td>It depends on the aspects I have mentioned earlier on, regarding the discipline of learners, we sometimes get support but sometimes we do not. This is because some parents are working and that is why they do not come to school when we need them. Parents that are working do not like to be called to school, they therefore become very angry with educators that call them, they complain that they waist time coming to school whilst they should be working. Regarding sectional meetings, parents support us, a lot, except those whose children are ill disciplined, they do not support us at all. Regarding all the parents we get support of about 50 per cent. We use correspondence and the community radio to communicate with parents, especially when we want them to come to school for a meeting. The problem is that we do not get a good attendance that we expect in these meetings.</td>
</tr>
<tr>
<td>Limited Support</td>
<td>50 % As the parents complain that they waist time coming to school instead of working.</td>
<td></td>
</tr>
<tr>
<td>Partnership</td>
<td>Community radio</td>
<td>Parents do not play a very big role here at school, except when the teachers know of a certain parent that plays soccer in a team in the township, and he is good in that, then we invite him to school to help us with the training of our soccer players.</td>
</tr>
<tr>

<tr>
<td>Working relationship</td>
<td>Problems when it comes to completing leave forms</td>
<td>There are problems here at school, especially when we talk about the leave for teachers. There are times when the teachers take days after the leave before they fill in their leave forms, this is against the policy on leave. Teachers are supposed to fill in their leave forms a day after they are back from their leave. When a clerk goes to the teacher to make him or her aware that she or he has not received the leave form, teachers usually respond by saying that they do not report to clerks, but she can talk to the HOD about it. We ended up saying that teachers have to submit their leave forms to their HODs and the HOD has to submit the leave form to the principal who will give it to the clerk. We once made a resolution that educators should be given a leave without pay especially those who deny filling in their leave forms and those whose reasons for leave are not clear or without proof. To deal with this problem we were helped out by the HODs.</td>

The most respected schools in Zambele. The parents and community members in Zambele. The respect the school a lot. Parents like enrolling their learners in this school. The reason why parents like to enrol their children here is because the school gets excellent results at the end of each year, the second point is that teachers here work very hard. In mathematics and science learners are doing very well. There have been bad times though, there was a bad spirit, there was something about burning the school down. The support of the parents and the community members was excellent. They assisted us with fixing the areas of the school that were damaged; things went back to normal.

The big secret sir, is that there is not even one teacher that works alone. We work as a team. We assist each other, you will find that the teacher for accounting that teaches grade 12 is assisted by teachers that are teaching the same subject in grades 8 to 11. The ultimate goal is for learners to pass at the end of the year. Teachers work together, teachers teaching in grade 12 do not see themselves better or look down on teachers teaching in grades 8, 9 and 10. We work together, we assist each other. Another thing is that during holidays we do not close, we make sure that the extra time during holidays is used effectively.
<table>
<thead>
<tr>
<th>Dedication</th>
<th>On Saturdays we focus on maths and Science.</th>
<th>On Saturdays we focus on maths and science. Learners attend extra classes on Saturdays. We usually request for help from people who know Maths and Science to come and assist us so that learners can do well in these subjects.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Support</td>
<td>Department meetings</td>
<td>As a member of the SMT, I try by all means to assist a teacher who has a problem. I assist teachers</td>
</tr>
<tr>
<td>Development</td>
<td>Good Relationships</td>
<td>with their preparation of lessons. I hold meetings for my department for a teacher that has a problem with presentation of lessons in his or her class. In these meetings all of us assist the teacher; this is a way of developing the teacher. An HOD has to have a good relationship with teacher, it is not that just because I am an HOD I know everything, no, we have to assist each other.</td>
</tr>
<tr>
<td>---</td>
<td>---</td>
<td>---</td>
</tr>
<tr>
<td>Achievements</td>
<td>Trophies Sport codes competitions</td>
<td>These trophies were received over years. We have a soccer team which is the main sport; we also have netball and jummajorrettes. We also have a choir, every year the school wins a trophy or two. This year we attended choir competitions we got a trophy. They proceeded to the provincial level where they also got a trophy</td>
</tr>
<tr>
<td>success</td>
<td>Commitment Sacrifice responsibility</td>
<td>The most important thing sir is teachers’ commitment and sacrifice that teachers make. When it is the teacher’s responsibility to train learners on a certain sport he or she makes a sacrifice so that learners can gain skills and knowledge of the sport, and learners motive that educators do their work whole heartedly and with commitment. This encourages learners to work very hard.</td>
</tr>
<tr>
<td>Celebrations</td>
<td>Awards Introduction of learner who performed well</td>
<td>Regarding learners who do well in sport, the school makes a celebration, on this day they get awards, and those who performed well academically they are introduced to other learners in the assembly. Later that day there will be celebrations of the awards; all educators are also included in these celebrations.</td>
</tr>
<tr>
<td>Communication</td>

<tr>
<td>1. Good image</td>
<td>In responding to your question I wish to start by the behaviour of our learners. Our learners are very committed to their work, their behaviour is good. We also don’t experience big problems as far as their behaviour is concerned. They attending classes in big numbers and the rate of absenteeism is very low. They stay at school from 8 in the morning until 3 in the afternoon. A good thing that keeps learners is the national school nutrition programme. Food is cooked here at school and every learner is enjoying a hot meal everyday at 10am in the morning. Since 2001 I was the chairperson of disciplinary committee and I have learnt that most of learners did not stay until school is out at 3 because they were hungry. Some of them don’t have parents they are orphans. They stay with their sisters or brothers, so they lacked parental care. Some of the learners have only 1 parent who is unemployed. We also discovered that most of the learners who misbehaved were those learners who did not have parents. We also discovered that they are the ones who needed some help. (16)</td>
<td></td>
</tr>
</tbody>
</table>
2. Reputation

In our school we had a problem because it was a new school and we were using a building in town. This resulted in our learners not being satisfied with the building because it was very old and one day they met and demanded that the Department Of Education must provide them with their own school within a township because they walked a long distance from the location to town. Most of the learners were unable to pay for transport this resulted in them toy -toyed and joined gangsters to help them fight for their rights.(13)

Later on when they got their building in the township, they kept on joining gangsters and their behaviour was not acceptable and nobody gave us a chance because our school was labelled as the worst school because of the stigma and you know that schools are measured buy their performance in grade 12. What was surprising was that they managed to do well in their first examination and they got about 70% pass rate .As a school we never got less than 55% in the examinations.(13)

When I started teaching in this school we were utilizing a building in Sasolburg town. The school was far from the location and leaner's used to walk to school because they could not afford to pay taxis or buses to transport them to school. This posed a very serious challenge to our leaner's.(14)

Some of our leaners could not arrive on time and others could not reach their destination. Some of the leaner’s met with friends on the way to school and started smoking dagga and others went to town to do shoplifting. When
we were busy teaching we would see police coming to school to report that some of our learner’s were arrested for shoplifting and in possession of dagga. Police were always complaining about the behaviour of our leaners. When we call meetings for parents very few parents attended those meetings because of the distance they were supposed to walk. Others were afraid of attending those meetings because of the rumours which were spread saying our learners are very dangerous. They carry knives, smoke dagga act. That was the sad part of our school.(14)

After some few years the Department of Education announced that we were going to utilize our own building in the location. We were very happy to lean that because we thought our learner’s would attend school because there was no need for them to walk long distances.(14)

The challenge we faced/experienced was that parents and the community were scared of our learner’s saying that they are in the location thus, it was going to be worse. They were scared of them saying that some of them were thugs. After some few years the situation improved and the attendance of learner’s improved and parents started attending meetings after they discovered that our learner’s were not that bad. We called parents to assist us to maintain discipline of our learners and parents were on our side. Gates were locked and leaners were not allowed to move up and down during tuition time. When learner’s misbehave we called parents to assist us. Even today our learner’s are behaving well, we don’t have a serious problem as far as
I arrived here at this school in 2010. Our educators are working well and they are committed. They are working together, very hard and there is a lot of team work.

Our school is not that bad. Parents like our school and they like to register their learners to this school. Our learners are also like other children they are not that bad.

3. Support

Yes the SGB support the school.

They support the school in terms of organising e.g. if we need a parents meeting they make sure that the majority of parents attend. When coming to teacher appointment they excel because they look for a teacher who deserve to be appointed. Unlike other SGB members from other schools they are controlled by a remote from the district. They don’t know how much power do they have and they have the prerogative to do the right things. Our SGB make sure that the people who are appointed here deserve. Our SGB also know that the educators who are appointed here know their work and are capable educators. Even at the district office they know me that I am in charge of geography and English in grade 12 and that my learners obtained very good marks in English. Some of the SGB members are the parents of these learners and they make sure that these learners get the best education. The SGB also plays a vital
role in disciplining learners who misbehave. When a child does not wear a school uniform after we have talked to him or her, we invite the SGB to intervene and attend to that case. They will even go to an extent of going to the learner’s home and talk to the learner’s parents. If the parents cannot afford to buy school uniform, the SGB will raise funds and buy school uniform for that learner (13).

The SGB of the school is very positive, they are on our side and they do a lot of work to support us. When we experience some problems of learner’s who misbehave, they intervene and reprimand those learner’s. Every parent or member in the SGB has an important role to play (14).

Our SMT is very good and they are working very hard. They guide and assist us in many things. They also encourage team work all the time. The SMT supervise our work and give guidance where necessary. They really assist us (14).

Yes, they do assist us more especially when educators experience behavioural problems of learners they really come and assist us. We write a letter indicating the school’s name, address, educators name, the name of learner who is misbehaving and the type of offence. In return a parent will come to school to address the problem. Parents also assist the school in many ways. There was an SGB chairperson who was very strict when coming to discipline. Learner’s were very scared of him because they knew he was very strict (15).

That is our sponsor which funded the erection of the tennis court. The school received money from Lotto to erect the fields
and to buy sports attire for our learners. For soccer players we don’t have fields our leaner’s use the local soccer fields. (15)

Parents assist us in many ways. If a leaner misbehaves we immediately invite parents to assist us and parents do not hesitate they provide help he and there. When we have school activities the parents assist us.

A lot. (16) attendance was very good. Parents came in numbers and this shows that our parents support this school. They go all out when they are invited to attend meetings. (13)

<th>4. Managing extra curricular</th>
</tr>
</thead>
<tbody>
<tr>
<td>Our school performs well in extra-curricular activities. Our acting principal is one person who is actively involved in sports and she assists in coaching learners. We also invite parents to assist us with the skills they have. We also teach our learners to take sports very serious because some of them are talented. We also teach them that sports assist learners to stay alert and it improves their mental capacity. (16)</td>
</tr>
<tr>
<td>We have different sporting codes such as athletics, netball and soccer. Our learners do take part in sports. We also have a sports ground to accommodate these leaner’s although they are not standardised. (15)</td>

Culture, for volley ball we got up to provincial level we did very well sir. We were given a university status by the Deputy Minister of Education. He also came to visit our school to congratulate the school for 100% pass in Maths and the following year for grade 12 Geography. I teach English and my students got 100% pass in grade 12. Thee are also other educators who did well in their subjects, our school is the best although the stigma is still there.

We have received some sponsors. This part of rope skipping is managed by the principal himself. This has motivated educators to work very hard because she has set the standard.

In 2010 we achieved above 70% in grade 12. In 2011 we obtained 60% in matric results.

6. Communication

Sir we communicate through our SGB representatives. They call parents meeting and they do address them. Sometimes we ask the SGB reps to talk to learners about good behaviour. We also invite parents to come and check the work of their learners.
We also ask parents to assist in sports and in athletics. Those who are coaches of soccer and netball they come and help us.(13)

In terms of discipline we write letters to parents because we don’t use corporal punishment or abusive language. After we have called the parents we also make follow up to see whether the learner’s behaviour has improved or not. Furthermore I show much care about him or her by calling him or her and ask if he or she does cope with his school work and I offer my assistance where he or she experiences some difficulties. The child becomes relaxed and appreciates what I am doing. He or she notices that I only want and wish him or her, the best in life. I have also visited those learners who have social problems to their homes and encourage them to do their best.(13)

I also assist those learners who passed grade 12 by showing them how to apply for a job and how to behave in an interview.(13)

We hold parents meetings here at school although at times we don’t attend such meeting we type letters and send them to parents inviting them for parents meetings.(15)

8. Good working relationship

We work together as teachers. I do not hesitate to ask a teacher to assist me with a certain aspect of a leaning area if I know that, that a teacher is good at that aspect, there is a good team work and that is why we succeed and our leaner’s are achieving good work.(14)

Aahl It’s a challenge/it’s difficult since I am
new and acting one thing I have realised is that they (teachers) think about always being attacked. They always feel threatened by their supervisors (HOD's). Even if you want to develop them they will still feel unsecured. (13)

If you invite them to the meeting they will not attend deliberately. What I do is that I go to them individually and give them feedback of the meeting they did not attend deliberately and don’t ask them why they did not attend. (14)

I've also realised that if the work is not done they sometimes want to see the response. When you ask them to submit their files they will delay and will just give me the file as it is. You evaluate and write the report, if there's some information which is missing in the file, I will just make copies and put them in the file. Instead of attacking the educator you assist him or her and show the importance of having a file updated. This has helped me a lot because there was an educator whose file was not up to scratch and after assisting that educator he became the best educator. People should be treated like people and not like animals. Our role as SMT members is to support and help educators. (13)

Our educators are also very committed, although there are only few who still need to be motivated. Teachers regard the grade 9 learners as matric class. They start preparing them for the final matric exam. This had instilled some confidence to our learners and is highly motivated. (16)

Our teachers work as a team and leaner's had learnt that there is a collective among our teachers. We also make use of periodic
time table where educators and class reps sign these registers. If the educator did not arrive in time or did not honour his or her period, he must account. We also have monitoring and control tools, a plan for the whole year indicating that work will be controlled on certain dates. The SMT meets every week to check progress in such meetings we look at a number of things such as loopholes, outstanding issues and try to address them. (16)

We are working harmoniously with educators. Although these are some challenges but as far as leave management. At times teachers are reluctant to complete leave forms and that makes us not happy and at times our relations become sour. (15)

At school we have HOD’s who are supposed to do SAMS but because of a high volume of work we do assist them by entering marks and other programmes in SAMS. (15)

9. Dealing with the media

Our gates are always locked and the security is there to keep order. Media cannot enter the school premises without the permission. Before a person can enter the premises he must first get permission even our learners cannot leave the school premises without permission. A learner must produce evidence or must be in a possession of a letter stating that he/she must be allowed to leave the school premises. People who are allowed to enter our premises are police officers. (14)

Our security personnel or factotum plays a very important role in our school. They know that they must protect our educators and our
learner’s. We always treat them with respect even if we have functions at school they know that we need their security and involvement. (14)

Our security is very tight. Those people who work outside they check and control the entrance of every person. Before they could enter the school premises they must first get permission from the principal. (15)

We do have a school policy, but it does not cater for such incidents (15).

At school we have a safety committee. We treat cases which are at our level but those which are serious we refer them. We are presently improving our policies to be compliant. We involve structures or stakeholders such as health department, social development, safety and security department, so that they can advice us to keep our policies compliant. The construction of the road next to our school is busy and a number of accidents to our leaner’s had occurred. We contacted the Dept Of Traffic to assist us, when the construction is completed we are going to have humps, so that the speed is reduced to protect our leaners. (16)

As far as the media is concerned we have experienced a problem before where the media alleged that one of our leaners was raped and the Principal as well as the Deputy did not report the case. Another problem we
are experiencing is the cell phones. Learners bring cell phones to school and they disturb or distract effective teaching. They take photos of educators and later these photos appear in websites like face book. We have requested parents to assist us not to allow their leaner’s to carry cell phones to school. Some of these learners are naughty and full of anger. When a teacher reprimands him or her it is almost ready to fight and some of our teachers are short tempered they find themselves exchanging blows with learners. When this happens leaner’s begin to take photos using their cell phones.(16)

I am not working in the finance department.
There is a clerk which is responsible for finance .I don’t know much about finances.
I am in charge of human resource department.(15)

I am not working in the finance department.
There is a clerk which is responsible for finance .I don’t know much about finances.
I am in charge of human resource department.(15)

Our leaner’s take part in different codes i.e. soccer, netball, athletics. They practice every Wednesday and they perform well. We currently have leaner’s who will be going to Canada for rope skipping(14)
We have received some sponsors. This part of rope skipping is managed by the principal himself. This has motivated educators to work very hard because she has set the standard.

These learner's are vulnerable they need help from in different ways. They need help from health departments, social department as well as social security department. As the chairperson of disciplinary committee I contacted the nursing sister from the local clinic and adopted her for our school. She was going to assist us with learners who experience health problem. All learners who experience those challenges will be referred to her. We also adopted a social worker who will be responsible for all learners who experience serious behavioural problems. The police officer was also adopted to assist with learners who experienced serious misbehaviour such as theft, doing drugs, etc. In such cases an adopted cop will be invited to talk to such learners, showing the danger and the disadvantages of those wrong deeds. By involving the above-mentioned stakeholders the behaviour of our learner's improved a lot. This has taught us to look deep into the root cause of the problems.

The community is assisting us by providing school uniform to needy learners.
16 April 2012

Dear Dr SJ Kwatubana

ETHIC CLEARANCE APPROVED

This letter serves to indicate that your ethics application was approved by the VTC Ethics Sub-Committee for Social and Behavioural Science (Humanities):

Faculty application number: FH-SB-2012-0013
Project leader: Dr SJ Kwatubana
Applicant: J Tshabangu
Project title: Perceptions of stakeholders on how schools in the Fezile Dabi district manage reputation.
Meeting date: 20 March 2012

The VTC Ethics Sub-Committee for Social and Behavioural Sciences wishes you well with your project.

Yours sincerely

Susan Coetzee Van Rooy
Chair: VTC Ethics Sub-Committee: Social and Behavioural Sciences
