## Grade 2

### Overview of Phonological Awareness Stages

<table>
<thead>
<tr>
<th>Phonological awareness activity</th>
<th>Support material</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>9. Final sounds</strong></td>
<td></td>
</tr>
<tr>
<td>• Learners say their own name and say the sound it ends with. Example: “My name is Vusi, and it ends with an /i/.</td>
<td></td>
</tr>
<tr>
<td>• Learners listen to words given to them orally that end with the same sound. Point out that the examples given also indicate rhyme.</td>
<td></td>
</tr>
<tr>
<td>• Read the short story from Grade 1 “What will I do?” to indicate different word endings around the short vowels.</td>
<td>Short story: What will I do? page 237</td>
</tr>
<tr>
<td>• Learners listen to a variety of words ending with different sounds.</td>
<td></td>
</tr>
<tr>
<td>• Learners complete the worksheet by filling in the final sound.</td>
<td>Final sounds worksheet page 237</td>
</tr>
<tr>
<td><strong>10. Onset and rime (Segment initial sounds)</strong></td>
<td></td>
</tr>
<tr>
<td>• Onset is the initial sound while rime is the rest of the word.</td>
<td></td>
</tr>
<tr>
<td>• Show the learners three letter words. Consonant-vowel-consonant. Ask the learners to say the word without the initial sound. Example: pan without /p/ is an. The /p/ is the onset and /an/ is the rime. This section should focus on the onset (initial sound) first.</td>
<td></td>
</tr>
<tr>
<td>• Draw learners” attention to words that start with the same sound. Example: /l/ at, /l/ ap, /l/ an.</td>
<td></td>
</tr>
<tr>
<td>• Now draw learners” attention to words with the same ending (word families). Example: /an/ in pan, /an/ in ran, /an/ in man.</td>
<td>Onset- rime worksheets page 240</td>
</tr>
<tr>
<td>• Learners complete the worksheets by filling in the correct initial sound to complete the word.</td>
<td></td>
</tr>
<tr>
<td>• Learners complete the word family house relating to a specific word family.</td>
<td>Word family house page 241</td>
</tr>
<tr>
<td>• Learners cut out the correct initial sound and paste it next to the correct rime „ending”.</td>
<td>Cut and paste worksheets page 243</td>
</tr>
</tbody>
</table>
### 11. Segment final sounds

- Once again, every learner should have a turn to say his/her name without the final sound.
- Say words with three sounds and draw attention to the final sound. Example: map with emphasis on /p/. Draw attention to words with the same ending first.
- Say words with a different ending and point out the difference in sound.
- The difference between stage 10 and stage 8 is that stage 8 is aural. During stage 10, learners start to segment sounds.
- Learners complete the worksheet by filling in the correct final sound to complete the word.

### 12. Phoneme isolation

- Use words with pictures and introduce one word at a time with the corresponding picture.
- Start with words with three sounds: Consonant-Vowel-Consonant.
- Learners need to recognize each individual sound in the word. Initial, medial and final sound. Example: /p/ /i/ /g/
- Learners complete the worksheet by filling in the correct initial and final sound.
- Thereafter, they complete the worksheet with a picture and three blocks. Learners need to fill in all three sounds pertaining to the picture.

### 13. Phoneme identity

- Learners recognize the same sound found in different words. Explain to the learners that they should listen to the word and indicate where they hear the sound given. Select words where the same sound is found in the beginning of one word, the middle of another word, and the end of another word. Example: I can hear /m/ in map, /m/ in camp and /m/ in mom.
### 14. Phoneme categorization

- Give the learners a group of words starting with the same initial sound but with one odd word starting with a different initial sound. Example: ant, apple, axe, dog.
- Do the same with final sounds. Do not mix the two activities. Do the initial sounds with an odd word first.
- Learners need to pronounce each word correctly and identify the odd word.

### 15. Blend and segment sounds

- Refer to words with three sounds used in previous activities. Say one word at a time very slowly so the learners can hear every sound clearly. Pay special attention to correct pronunciation. Example: /r/ /e/ /d/ = red, red = /r/ /e/ /d/.
- Learners receive the worksheet with the phoneme analysis blocks. Give them one word and ask them to write the whole word in the big top square and segment the word in the smaller blocks below.
- Learners can try to write their own words with three sounds and segment it.

#### Phoneme analysis worksheet page 274

### 16. Phoneme deletion: initial sounds

- This is an aural activity only. First write a familiar word on the board with three sounds. Show learners a picture relating to the written word. Point to the word and tell them to say the word without the initial sound. Example: “say mat without /m/.” Learners must reply “at”.
- Do this with words from the various word families.
- Once learners have mastered this skill, do the same activity with word blends. Example: “say shop without /sh/.” Learners answer /op/.

#### Worksheet with examples of words for initial sound deletion page 275

### 17. Phoneme deletion: final sounds

- This is an aural activity only. First write a familiar word on the board with three sounds. Show learners a picture relating to the written word. Point to the word and tell them to say the word without the final sound. Example: “say mat without /t/.” Learners must reply “ma”.
- Remember that the remaining sounds do not need to make sense

#### Worksheet with examples of words for final sound deletion page 276
- Do this with words from the various word families.
- Once learners have mastered this skill, do the same activity with word blends. Example: “say shop without /p/.” Learners answer /sho/.

18. **Phoneme addition: initial sounds**

- This is an aural activity. Use words used above that learners are familiar with.
- Give learners the rhyme and ask them to add the initial sound to complete the word.
- Example: “say ap, but add a /m/ in front of it.” Learners must reply map.

19. **Phoneme addition: final sounds**

- This is an aural activity. Use words used above that learners are familiar with.
- Give learners the first part of the word (onset), and instruct them to add the given sound to the onset to form a new word or plural. Focus on the sound. Example: “say go, but add a /t/ at the back.” Learners should answer “goat” and not “got”.

20. **Phoneme substitution**

- Show learners a picture card with the word and explain that substituting one sound in a word with another sound, forms a complete new word. Focus on pronunciation. Example: pen can be change to pin by substituting the /e/ with /a/.
- Pen can be changed to peg by substituting the /n/ with /g/.
- Pen can be changed to hen by substituting the /p/ with /h/.
- Give learners a few words and allow them to form new words by substituting the initial, medial and final sound with another sound.
- Give learners a few pictures and ask them to form a new word by changing a sound. This can be done as group work or individual.

Worksheet for phoneme substitution page 278
### Songs to teach phonological awareness

- The educator sings the song and does all the actions.
- The song and relevant pictures are discussed. Ensure that all learners understand the vocabulary in the song. Pay special attention to pronunciation. Point out rhyming words and emphasise initial and final sounds when dealing with this skill.
- Sing the song with the actions again with the learners.
- Individuals or groups of learners take turns to sing the song with the relevant actions.

**Songs page 287**

### Stories to teach phonological awareness

- Show learners the pictures and allow discussions regarding what they think the short story is about.
- Read the short story to them. Ask questions afterwards and ensure all learners understand the short story.
- Re-read the story on several days. Emphasise rhyme, or the sound taught during that week.
- Once learners know the story well, give them the „Written by“ worksheet to draw a picture illustrating the short story. Allow them to write a short sentence.
- This activity provides an opportunity to teach the concept of print and how pictures correspond with words.

**Stories page 280**

### Using poems to teach phonological awareness

- Explain to the learners that rhyming words sound the same and have the same ending.
- Read the rhyme to the learners, pointing to the pictures and say the rhyming words out loud. Discuss the rhyme and the pictures.
- Make sure that all the learners understand the poem and all the vocabulary in the rhyme.
- Learners learn the rhyme, point to the pictures and do the actions where applicable. Learners each get a turn to say the rhyme.

**Poems page 279**
### Additional support material

- Games. Follow the instructions for each game.
- Fun short vowel revision
- Colour coding

<table>
<thead>
<tr>
<th>Flip over game</th>
</tr>
</thead>
<tbody>
<tr>
<td>Word search</td>
</tr>
<tr>
<td>Tongue twisters</td>
</tr>
<tr>

Clipart: www.teacherspayteachers.com/Store/Allyson-Lane
Phoneme categorization

Pronounce each word and recognize the odd initial or final sound.

Initial sounds with odd sound

- ant
- alligator
- bird
- apple
- axe
- car
- elephant
- cake
- cup
- cat
- horse
- hen
- hamburger
- helicopter
- pineapple

Final sounds with odd sound

- cat
- mop
- hat
- rat
- fan
- pen
- pan
- bed
- pig
- dog
- bug
- nut

Rhymes with long vowels

a (silent e)

Skates
I made a trade with my friend Kate
to get her purple roller skates
I laced them up to have a race,
but faster Kate came in first place.

Snake
Inside a little crate
I placed a little snake.
I use it in a game,
because it is a fake.

i (silent e)

Mice in a line
A wise old cat climbed up a slide,
and five white mice lined up to ride.
The wise old cat had seemed so nice
until he dined on five white mice.

o (silent e)

The mole
The mole went down a little hole
and didn't make a sound.
She chose to be there all alone,
at home under the ground.

u (silent e)

My paper flute
I used some tubes of cardboard,
and lots of super glue.
I made a special little flute
and played a tune for you.
Consonant blends

Tongue twisters and alliterations
Say as fast as possible

\begin{align*}
\text{sh} & \quad \text{She sells sea-shells on the sea-shore.} \\
\text{th} & \quad \text{Through thick and thin a thorn tree grew} \\
\text{fr} & \quad \text{I get fresh fruit from my friend Frank on Friday.} \\
\text{tr} & \quad \text{Trip-trap, trip trap, Trotting up the track.} \\
\text{pl} & \quad \text{Please pluck the plums early or late} \\
& \quad \text{And place them on a plain plastic plate.} \\
\text{pr} & \quad \text{Pretty Pronella, filled with pride, pushes a pram with her baby inside.} \\
\text{cl} & \quad \text{Click your fingers, clap your hands, clip-clap your feet;} \\
& \quad \text{Clang the hammer, clash the swords, to the clashing beat.} \\
\text{bl} & \quad \text{The blind boy blunders to the back.} \\
\text{fl} & \quad \text{The flimsy flag flips and flaps in flight.} \\
\text{nk} & \quad \text{In a wink the tank sank near the river bank.} \\
\text{br} & \quad \text{Bring the brown brick to build the broken bridge!} \\
\text{sl} & \quad \text{Slow slug slips and slides over the slimy slate.} \\
\end{align*}

How bright was the light in the middle of the night
When two bold boys got up to fight!
It was left and right with all their might
And left and right they held on tight!
Until they were tired and out of sight.
Back in their beds and said: Good Night!

Story for sh- consonant blend

Circle all the words beginning with 'sh' in red. Circle all the words ending in 'sh' in blue.

There was a crash of thunder, a flash of lightning and down poured the rain! It poured down in a great rush on to the earth. In a short time, the road was like a rushing river and Tebogo's shoes were soaking wet. Tebogo looked for shelter. He found an empty shop and it was open.

Just then he saw something shiver in the dark corner of the shop. He looked closely and there was a sheep in the shadows.

The door shut and Tebogo shouted. Then he fell asleep. The next day, his shoes were dry and he walked along a short road to visit Tash.

Story for ‘th’ consonant blend

Circle all the words starting in ‘th’ in red. Circle all the words ending in ‘th’ in blue.

In the middle of the forest, there stood a little house with a thatched roof. Close to the house stood a thorn tree. A sweet and thoughtful lady lived there. She was tall and thin and had thick, dark hair. People would walk down the path to bring her their clothes to mend, or cloth to make them clothes with her needle and thread. She could thread her needle as quickly as a thought.

Afterwards they would give her some fruit from the trees in their gardens, or bread they had baked in their kitchens, or a pillow stuffed with soft feathers. Then they thanked her for her beautiful sewing and walked back home along the path.

Source: Van Alphen (2012)
Story for 'ch' consonant blend

Circle the words beginning with 'ch' in red.

Cheeky Chick was the biggest of Mother Hen’s chickens. “Look at me!” he chirped. “What a clever chap I am! I am Cheeky Chick!” Chirp! Chirp-chirp!

Cheeky Chick ran past a child who was sitting on a chair chewing some cheese. He then heard a chop-chop noise and ran towards it. A man named Charlie was chopping wood. There were chunks of wood chips in a pile.

Cheeky Chick got hurt. Charlie picked up Cheeky Chick and carried him back to the chicken coop.

“What a lucky chap I am!” chirped Cheeky Chick.

The frog

Croak, croak, says the frog as it hops into water. Frogs like water. They can swim very well. They can jump too. Frogs, live in swamps and ponds. Some frogs live in trees. Frogs lay eggs which hatch into tadpoles. They eat insects and worms.

Source: R.I.C. Publications
Read and draw

Three green frogs are by the pond.

A big brown frog is swimming in the water.
Example of colour coding:
Beginning blend in red, vowel in yellow, final blend in blue.

Songs

BINGO (Vowels)
There is a sound that says /a/, /a/
/a/, /a/ is its sound OH! (learners shout OH!)
/a/ for apple, ant and axe
/a/ for apple, ant and axe
This is the sound of /a/ OH!
(use for other vowels: Use short words from alphabet stories)

Grade two: use consonant blends and word families and fill in your own words.

There is a sound that says /sh/, /sh/
/sh/, /sh, is its sound OH! (learners shout OH!)
/sh/ for shop, cash and shoes
/sh/ for shop, cash and shoes
/sh/ for shop, cash and shoes
This is the sound of /sh/ OH!.

There is a rime that says /at/, /at/
/at/ /at/ is the rime OH!
cat, bat, hat, fat, mat
cat, bat, hat, fat, mat
cat, bat, hat, fat, mat
these all end in /at/ OH!

Jingle bells - short vowels
/a//e// i/
/a/ /e/ /i/
/a/ /e/ /i/ /o// /u/

/a//e// i/
/a/ /e/ /i/
/a/ /e/ /i/ /o// /u/

(start singing slowly and go faster and faster every time)

Games

Flip over game – Use to revise sounds and words learnt

Instructions

The educator can fill in her own words in the blank blocks or use the examples below for long vowels and various word families. Cut out and laminate the cards to preserve them. Make copies of the words according to the number of groups of learners. Learners pack out the words or pictures in front of them. As the educator calls out the words, the learners flip the word cards over. When there is only one word left to pronounce, the educator checks to see if all the groups/learners have the same last word.

Crazy letters word building game

Instructions:

Two players start on a prepared card containing two vowels. If you want all learners in the class to play with, draw the table on the blackboard.

Place any two vowel letters to start the game. Do not place vowels next to each other.

Player one writes down one letter at a time in the empty space. Player two adds one letter and tries to make a word. A four letter word scores four points. A three letter word scores three points. At the end of the game, some spaces may be left open.

Allow only one minute per turn. If the time is up and the player has not played, the turn is lost.

#### 9. Phoneme Blending

| 1. | /m/ /w/ | ME |
| 2. | /b/ /w/ /k/ | BED |
| 3. | /n/ /w/ /n/ | HAT |
| 4. | /n/ /w/ /n/ /k/ | MUST |
| 5. | /sk/ /s/ /p/ | SHOP |
| 6. | /pi /n/ /t/ /n/ /t/ | PLANT |

**TOTAL CORRECT:**

#### 13. Phoneme Deletion of Final Sounds

| 1. | /m/ /s/ /k/ | ROW |
| 2. | /n/ /i/ /a/ | TRAY |
| 3. | /gr/ /e/ | GEEW |
| 4. | /sh/ /i/ | SEA |
| 5. | /ba/ /k/ /e/ | RAY |
| 6. | /in /ch/ | IN |

**TOTAL CORRECT:**

#### 16. Phoneme Segmentation

| 1. | /m/ (2) |
| 2. | /at (2) |
| 3. | /name (3) |
| 4. | /ship (3) |
| 5. | /sock (3) |
| 6. | /chin (3) |

**TOTAL CORRECT:**

#### 17. Phoneme Deletion of Initial Sounds

| 1. | /a/ /n/ | un |
| 2. | /g/ | g |
| 3. | /m/ | op |
| 4. | /n/ek | eck |
| 5. | /b/ | at |
| 6. | /c/ | spe |

**TOTAL CORRECT:**

#### 18. Phoneme Substitution

| 1. | change the first sound in MAN with /k/ | CAN |
| 2. | change the first sound in PIG with /h/ | DIG |
| 3. | change the first sound in SACK with /h/ | TACK |
| 4. | change the first sound in WALK with /h/ | FELL |
| 5. | change the first sound in BED with /h/ | RED |
| 6. | change the first sound in SHOEP with /h/ | CHOP |

**TOTAL CORRECT:**

**COMMENTS:**
